

2023 Juneau Audubon Society Field Trips

JAS Field Trips are free and open to the public. Please bring binoculars and gear up appropriately: layered clothing, rain and sun protection, snacks, and drinking water. A bird book or phone id app for bird identification will be useful.

Registration via Eventbrite is optional but encouraged. And please leave your four-legged furry friends at home.

NOTE: You will find directions, maps, and other informative links on JAS Eventbrite, Facebook, and Instagram accounts. Also, departure times and Field Trip details may change. We suggest that you check these JAS sites prior to your field trip.

The Berners Bay Cruises have a cost associated with them. These are our major fundraisers for the year. Tickets are available from Juneau Arts and Humanities Council at <https://jahc.na.ticketsearch.com/sales/salesevent/14781>.
